FROM: Harman Singh, Project Manager
SUBJECT: Projects and Airport Capital Improvement Update

Capital Projects

Bono Concourse Escalators:

Background: This project aims to replace the escalators leading to the Sonny Bono Concourse to reduce noise and improve operational uptime. Both Sonny Bono Concourse escalators were refurbished with in-truss replacements 9 years ago. At the request of the Airport Commission, the Executive Director of Aviation has directed Airport staff to research the costs and efforts required for a full replacement.

Status: In Progress

- The project is in production.
- Staff are actively working with the contractors during their bi-weekly meetings to get updates on production, discussions on laydown areas and other documents to prep for mobilization.

Next Steps:

- Escalator equipment manufacturing and delivery of material.

Timeline:

- Escalator equipment is expected to be delivered in August and installation completion by end of September 2026.

Taxicab/Transportation Network Company (TNC) Shade Structures - Measure J Funds:

Background: This project is one of the four capital improvement projects funded through Measure J. The project involves the design and installation of dedicated shade structures in the pick-up area for Taxicab services and TNC's, specifically Uber Technologies Inc. and Lyft Inc. The goal is to enhance passenger comfort and safety by providing protection from the elements, thereby contributing to a more positive transportation experience.

Status: In Progress

- The project was presented to the Historical Site Preservation Board (HSPB) during their April 7, 2026, meeting.

- Airport staff are coordinating with the HSPB officers on final drawings that include the perspective view of the structures, front/side elevations and other structural details for their review and input.

Next Steps:

- Finalizing the structure design and moving forward with procurement process.

Timeline:

- Final design is expected to be completed in May.

Outbound Baggage Handling System Replacement:

Background: This project is intended to modify or replace the existing outbound baggage handling system with a new system to improve capacity and efficiency, enhance baggage tracking through additional technology, reduce or eliminate single points of failure, and improve overall ergonomics for staff.

Status: In Progress

- Swinerton Builders (General Contractor) has been mobilized at the airport.
- Construction site has been secured and barricaded for secured operations.
- City has issued permits for the temporary building.

Next Steps:

- Excavation and site investigation to continue.
- Foundation preparation for the temporary baggage handling station.

Timeline:

- Continuous progress per the schedule.

Restroom Renovations – Design Phase:

Background: City Council approved the design and renovation of all public restrooms Airport-wide in the Fiscal Year 2023 budget. The project includes demolition and replacement of flooring and fixtures, upgrades to ventilation and lighting systems, and the conversion of select restrooms to gender neutral facilities.

Status: In Progress

- City has approved the stamped plans.

Next Steps:

- Airport staff to review detailed cost estimate submitted by the Architectural team for funding/budget strategy.

Timeline:

- TBD.

Purchase of (8) Plug-In Electric Vehicle (EV) Pickup Trucks & EV Chargers:

Background: This project involves the procurement of eight (8) zero-emission pickup trucks and four (4) electric vehicle (EV) chargers to replace the existing gas-powered Airport fleet trucks. The purchase supports the Airport's efforts to minimize environmental impact. The project is funded by the Federal Aviation Administration (FAA) through the Airport Zero Emissions Vehicle (ZEV) and Infrastructure Pilot Program.

Status: In Progress

- All eight (8) trucks have been delivered to the city yard.

Next Steps:

- Trucks to be prepped for make-ready equipment and airport use.

Timeline:

- All trucks expected to be in service by mid-June.

(80) Electric Vehicle Chargers Installation:

Background: This project will install 80 Electric Vehicle Charging Systems (EVCS) at parking Lot-B located at the airport. The 80 EVCS consists of 39 dual port charger pedestals and (2) single port pedestals. This project is part of Southern California Edison (SCE) Charge Ready Program & SCE has provided site design and layout. SCE will complete the installation of load-side infrastructure and provide infrastructure to the stub up.

Status: In Progress

- General contractor firm GA Technical Service has been selected and project teams established weekly meetings on project progress.
- Lot closure is in progress; airport staff has cleared about 90% parking stalls.

Next Steps:

- Project mobilization and installation is expected to start by mid-May.

Timeline:

- Installation is expected to be completed in June.

Hangar 18 Outfall Repair Project:

Background: Project is to repair the damaged Stormwater Outfalls and damaged pavement due to hurricane Hilary. The scope includes the demolish of the existing security fence, the Stormwater Outfalls and the damaged pavement. Installing new concrete Stormwater Outfalls, new perimeter fence with the new standards.

Status: In Progress

- Utility (Communication and fire hydrants) relocation is in progress.

Next Steps:

- Utility relocation complete and project mobilization.

Timeline:

- Utility relocation is expected to be completed in approximately 30-45 days.

Admin Building Move Timeline:

- I.T. core network and infrastructure:
 - In progress, Purchase orders issued last week of April.
 - Lead time and work completion are expected by mid-June.
- Facilities upgrade and essential makeover:
 - In process of evaluating proposals for facility related essential work.
 - Work completion is expected by late June.
- Staff move-in:
 - Staff move-in phases (division by division)
 - Staff move-in starting mid-June to late July.
